Rodrigo Valdivia

BACKEND & FULL-STACK ENGINEER

+54 9 341 501-0421 | rodrigo1995val2@gmail.com | LinkedIn | GitHub | rodrigo-valdivia.com | Rosario, Argentina | Remote

PROFESSIONAL SUMMARY

Backend and full-stack engineer with 5+ years of experience building web applications, backend services, and AI integrations. Owned DEX SelfOrder's database model and API/frontend architecture using NestJS and TypeScript. Built Delfi AI's first RAG/OpenAI chat proof of concept. Experienced in remote Agile teams; advanced English (C1).

WORK EXPERIENCE

Eudaimonia Software Solutions July 2022 - Present

Full-Stack Developer

Remote

- Designed the database model and API/frontend architecture for DEX SelfOrder, a multi-tenant platform for digital menus, products, stores, and self-service kiosks.
- Developed NestJS/TypeScript APIs with TypeORM, SQL Server, Redis, BullMQ asynchronous jobs, and Keycloak authentication and authorization; worked with an Angular back office.
- Built Delfi AI's first chat proof of concept using RAG and OpenAI; contributed to OpenAI-based agent workflows and process automation.
- Contributed to DEX Vision backend services, including event monitoring and asynchronous notifications, and to the Sanoviv patient portal for medical studies and records.
- Built and deployed the official Zanella and Kawasaki Argentina applications using React Native for iOS and Android.
- Collaborated with product, UX/UI, and QA teams throughout Agile sprints.

Alkemy April 2022 - June 2022

Full-Stack Developer, Acceleration Program

Remote

- Built a responsive application for the NGO Somos Más in a Scrum-based development simulation, using React and Redux and REST APIs with Node.js, Express, MySQL, and Sequelize.

Sertex July 2021 - May 2022

Front-End Developer

Rosario, Argentina

- Developed the company's marketing website and back-office platform with React and JavaScript; built responsive customer-facing and internal interfaces.

Urban Roomie January 2021 - June 2021

Front-End Developer

Remote

- Developed responsive web interfaces using React, JavaScript, HTML, and CSS; collaborated on UI/UX improvements in an Agile team.
